- 10' x 10' Frame
- 4 Piece Stake Kit

How To SET UP

1. Place your E-Z UP® frame in the center of area to be sheltered. With partner on opposite side, grasp two outer legs, slightly lift off ground and step backwards, stopping at full arms' length.

2. Grasp the top and bottom of diamond-shaped area of trusses near "open" stickers. Slightly lift shelter up and push hands together while stepping backwards until shelter is fully opened. **Be careful not to pinch fingers or pull backwards too hard as trusses will bend.**

3. Engage auto slider at each corner by pushing up on slider with one hand while pushing down on top of leg with other hand. Snap button will engage in hole. Repeat step on remaining legs.

4. Lift adjacent outer legs and pull out inner legs until snap button locks.

5. Choose different height option by depressing snap button with your partner and lifting shelter until next snap button locks. Use stakes provided to secure.

How To TAKE DOWN

1. With a partner, lift adjacent outer legs slightly, depress snap button and telescope inner legs into outer legs. Repeat on remaining legs.

2. Release auto slider at each corner by first lifting hem of top. With one hand, push up on truss near slider to remove the weight of the shelter from snap button. Depress snap button and push slider down.

3. With partner on opposite side, grasp top and bottom of diamond-shaped area of trusses, near "close" stickers, and slightly lift up. Shake shelter slightly, pulling hands apart, while stepping towards partner until shelter is 3/4 closed.

4. Grasp adjacent outer legs and push shelter together until fully closed. **Be careful not to pinch fingers!**
